Research Summary

Researchers conducted web searches using the Google search engine on a computer cleared of cookies and caches, and not signed into a google account. They searched first by the county name, using the terms “ ‘X’ County, Texas Deer Hunting” and then searched by a community name, using the terms “ ‘X’, Texas Deer Hunting”. They took the top results for each search, stopping when they obtained 12 relevant results or after 50 total results. There was a maximum possible 24 results from each county – 12 from a county search and 12 from a community search. These results come from a standard internet search and may not represent all of the guides operating in the county. The results reflect how well the guide businesses have positioned their websites to appear in standard searches. Included in the research data is the average, highest, and lowest rank of the search results. A search result with the rank of “2” was the second search result to appear and so on.

Relevant results were individual hunting guides, or hunting ranches. The “Standard Product” used for this research was a 3-night guided hunting trip with 130” Whitetail Deer being the target. Data was also taken for non-standard product results, such as hunting trips with more or less nights offered, and larger or smaller deer as the target. The results are differentiated by creating two categories “Total Results” and “Standard-Product Only Results”.

Researches took information on the prices of hunting packages, whether or not they offered the 8 most commonly offered amenities, and where the guide was located.

Google Form

This Google Form was used to log information as it was received. It contains a multitude of questions to assess the different amenities offered by guides, the variety of prices, and the type of results obtained for different searches.

Perform a google search for either "County, TX Deer Hunting" (Ex: Atascosa County, TX Deer Hunting) or "Community, TX Deer Hunting". Community should be a city/town within the county you are gathering information for. Be sure the screenshot the first page of your search results and keep for your records. Take up to 12 relevant results from each different search (24 maximum per county) or as many relevant results that appear in the first 50 total.

* Required

Business Name *

This is a required question

Rank of Search Result *

What number search result was this business (1st, 2nd, 5th, etc) out of all of the non-sponsored results. (Note, most standard google settings return 10 results per page)

Business Website *
